Grand Total of 4th, 5th, 6th = 1922, meaning that the total will be c. 2771, rather than 2200. The discrepancy seems to be that c. 2200 translations had "T" numbers, one up. For the total, 2200, I had used the "T" log and had not hand-counted on all lanes, esp those in the sixth

Approved for Release by NSA on 07-03-2014, FOIA Case # 42771

"T" = translation no.
